

Libberton Primary School Improvement Plan 2024-2025

At Libberton Primary School, we will focus on several priorities to support our improvement planning in 2024-25

Equalities - UNCRC

Outcome

Ensure all children feel included and treated equally.

What we will do

Engage with all members of the school community to raise awareness of UNCRC.

Equalities - Inclusion

Outcome

Whole school nurture approaches to develop positive relationships across the school community.

Children feel safe and supported in school and opportunities for pupil leadership/voice.

What we will do

Whole school nurturing approaches to continue to build positive relationships across the school community.

Embed our relationship policy with all stakeholders.

Continue to work towards attachment accreditation pledges, involving parents and sharing progress.

CLPL activities for staff to further develop whole school nurture approaches.

Equalities - Race

Outcome

Encourage our children to recognise that differences do not define us, but how we treat each other in regard to our differences can.

Children across the school are improving their understanding of racism and equality to support them to reflect on their own positionality and take an active stand against racism. All young people should be able to see themselves reflected in the school's curriculum.

What we will do

CLPL activities for staff to increase understanding of racial literacy and their individual roles with anti-racist.

Audit teaching materials and resources to ensure they reflect all aspects of diversity and inclusion.

Learning and Teaching

Outcome

Ensure children receive consistency and continuity across the curriculum, with a continued focus on raising attainment.

What we will do

All stakeholders will review the aims, visions and values for Libberton Primary.

Curriculum pathways used to effectively plan, teach and assess all learners ensuring pupils are appropriately challenged and supported.

Use Fact, Story, Action approach to engage in meaningful approaches to tracking and monitoring conversations.
